DEPARTMENT OF DEFENSE

SMALL BUSINESS and LABOR SURPLUS AREA SPECIALISTS

designated to assist the businessman

OFFICE OF ASSISTANT SECRETARY OF DEFENSE
INSTALLATIONS & LOGISTICS
WASHINGTON, D.C., 20301

FOREWORD

It is a paramount objective of the Department of Defense to acquire weapons and material which fully meet qualitative, quantitative, and delivery requirements -- at the lowest over-all cost. To achieve this objective, maximum emphasis is placed on full and free competition, with equal opportunity to all interested qualified suppliers to compete for Defense contracts.

Department of Defense Procurement Offices are located in many major cities in the United States. Small business specialists at each of these offices are available to assist businessmen in obtaining information and guidance on -- Defense procurement procedures -- how to be placed on the bidder's mailing list -- and identification of both prime and sub-contract opportunities.

The location of Army, Navy, Air Force and Defense Supply Agency procurement offices and the names of the small business specialists are listed in this pamphlet by State, alphabetically.

Some of the procurement offices listed in this pamphlet purchase only those supplies and services that are required to meet local needs. Others have the broader assignment of central procurement responsibility for particular commodity requirements of one or more of the military departments on a national or global basis.

SELLING TO THE MILITARY

The major military procurement offices and the products and services they purchase are set forth in the pamphlet "SELLING TO THE MILITARY." This pamphlet may be purchased from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. -- Price 25 cents. Also, types of products or services each procurement office may purchase in the future are indicated by their listings of requirements in the "COMMERCE BUSINESS DAILY."

COMMERCE BUSINESS DAILY

The "COMMERCE BUSINESS DAILY" is a valuable source of information to businessmen in identifying products and services which individual military procurement offices currently plan to buy. The publication also lists proposed procurements of other federal agencies; subcontract opportunities offered by Defense prime contractors; recent contract awards, which, in turn, provide "leads" to additional subcontract opportunities; surplus sales information; and, other pertinent information on federal procurement activities.

The "COMMERCE BUSINESS DAILY" is published Monday through Friday and may be purchased on annual subscription for \$20.00 by regular mail or \$62.00 for an air mail edition. Checks or money orders should be made payable to the "U. S. Department of Commerce" and mailed to:

U. S. Department of Commerce
Administrative Services Office
Room 1300, New Post Office Building
433 West Van Buren Street
Chicago, Illinois 60607

BIDDERS MAILING LISTS

A business firm seeking to participate in Defense procurement should inform military procurement offices of products or services it has to offer and request that the firm be placed on appropriate bidders' mailing lists. Copies of Standard Form 129, "Bidder's Mailing List Application," are available at most federal agency procurement offices.

Each procurement office maintains lists of firms that are capable of supplying products or services purchased by the office. Firms on the bidder's list are supplied "Invitations for Bid" or "Requests for Proposals" on new procurements.

Normally, the submission of Standard Form 129 "Bidder's Mailing List Application" -- with complete and exact information about the products or services on which a firm wishes to bid -- is sufficient to secure placement on a procurement office bidder's list. However, in some cases, procurement offices may require that additional information be supplied.

Submission of Standard Form 129 results only in the prospective bidder being placed on the bidder's mailing list of the procurement office to which the form is submitted.

ADDITIONAL SOURCES OF INFORMATION

The Small Business Administration, General Services Administration, and the Department of Commerce also have field offices in many cities which are equipped to assist business firms in locating opportunities to participate in military procurement.

Local Defense activities listed in this pamphlet and field offices of other Federal agencies should be the initial contact for assistance and guidance on how business firms can participate in Defense work.

Individuals visiting the Washington, D. C. area who seek assistance in federal procurement procedures may contact the offices listed below. These offices do not let contracts but are available only for the purpose of providing information and guidance.
